

# We Lead with Love

Since 1888, Stillwater Hospice (formerly Visiting Nurse) has served families with a full suite of compassion services—from hospice and palliative care, to chronic disease management and grief support. And while our services have evolved and grown in our 130-plus years, our driving purpose never has: to deliver the most compassionate care to those we serve. From our family to yours, in everything we do, we **Lead with Love**.

Stillwater Hospice is a community-based, not-for-profit organization supported by the Stillwater Foundation. We rely upon donations from people like you to help fulfill our mission, and we are so grateful for your support.

# What Is Hospice Care?

Hospice care is high-quality, patient-focused care that helps terminally ill patients and their families live as fully as possible. Hospice utilizes an interdisciplinary team of healthcare professionals and trained volunteers who address symptom control, pain management, and provide emotional and spiritual support tailored to each patient's needs and wishes.

Our hospice care is for people in residential homes, assisted living and skilled nursing communities—wherever the individual calls home. Call us at (800) 288-4111 to learn more, and schedule a no-cost informational visit.

## HOSPICE CARE IS FOR ANYONE WHO:

- Has been diagnosed with a life-limiting disease with a life expectancy of six months or less if the disease process runs its normal course.
- Plans no further curative care or treatment.
- Is asking for comfort measures only, such as pain management and symptom control.
