

Compassion above all

Since 1888, Stillwater Hospice (formerly Visiting Nurse) has served families with a full suite of compassion services—from hospice and palliative care, to chronic disease management and grief support. And while our services have evolved and grown in our 130-plus years, our driving purpose never has: to deliver the most compassionate care to those we serve. From our family to yours, in everything we do, we **Lead with Love**.

Stillwater Hospice is a community-based, not-for-profit organization supported by the Stillwater Foundation. We rely upon donations from people like you to help fulfill our mission, and we are so grateful for your support.

Programs & Services

HOSPICE CARE

Hospice care is high-quality, patient-focused care that helps terminally ill patients and their families live as fully as possible. Hospice utilizes an interdisciplinary team of healthcare professionals and trained volunteers who address symptom control, pain management, and provide emotional and spiritual support tailored to each patient's needs and wishes. Our hospice care is for individuals in residential homes, assisted living and skilled nursing communities—wherever the individual calls home.

HOSPICE HOME

Hospice Home provides 24-hour medical care to those needing more intensive monitoring and treatment than can be managed in their own home. The region's only free-standing hospice facility, Hospice Home provides a warm and comforting home-like environment. Visitors are welcome at any time, day or night.

PALLIATIVE CARE

Palliative care is patient- and family-centered care, provided by physicians and nurse practitioners. It addresses the physical, emotional and social needs of those facing serious and chronic illnesses. It is appropriate at any age and at any stage in a serious illness, and it can be provided along with curative treatment.

CHRONIC DISEASE MANAGEMENT

With our Chronic Disease Management program, our skilled nurses, home health aides and specialized physical, occupational and speech therapists ensure patients' safety and comfort as they recover from illness in their own homes.

SPECIALTY PROGRAMS

At Stillwater Hospice, we care for the entire person—mind, body and spirit. We integrate special therapies, such as music, massage and therapy animals, to address each patient's unique needs.

FAMILY SUPPORT

Discussing all care options—including palliative and hospice care—is appropriate at any stage of a serious illness. Discussions with our hospice team can help guide patients, their physicians and their families in making the best decisions about care.

GRIEF SUPPORT

At Stillwater Hospice, our goal is to provide a quality grief and loss education program to families in our region. Our grief programs are provided at no charge and are open to any adult who has suffered the loss of a loved one due to death—whether that person received services from Stillwater Hospice or not.
